ERESIDENT'S MESSAGE

...our strategic goal must be to strengthen Juniata's uncommon liberal arts approach to learning...

Dear Friends,

About a year ago, we began the process of developing our next Strategic Plan. Part of that process included random surveys with alumni and interviews of alumni at various occasions on campus to determine what you believed to be the enduring qualities of a Juniata education.

As the Strategic Planning Committee reviewed the alumni results, along with other input, it became clear that our strategic goal must be to strengthen Juniata's uncommon liberal arts approach to learning rather than to change it. Indeed, the committee reaffirmed Juniata's primary mission as "a learning community dedicated to the highest quality education in the liberal arts and sciences, thereby empowering our graduates to lead fulfilling and useful lives in a global setting."

Here are just a few of the comments we received:

From Dewayne Rideout, a member of the class of 1980, "The value of Juniata really boils down to a very personalized education, taught by very sincere, caring people who want students to learn and who are willing to push them to learn."

And from Jodie Monger Gray, a member of the class of 1988, "I look back on my years at the College and I am so very thankful that the people at Juniata took the time to see the potential in every one of their students, and then help us realize that potential."

Brent Lightner, a member of the class of 2000, summed it up by saying, "You just can't beat the interaction between faculty members, staff members, and students – at Juniata, education is a very individualized process."

And finally, from Brandon Zlupko, another class of 2000 graduate, "I owe my development as a person, a lot of my values, and a lot of my abilities to my experience at Juniata. I owe the College for that. And while you can't put a price tag on all that I have received, I will contribute and give back all that I can."

You will read more about our Strategic Plan and the Uncommon Outcomes Campaign that will support it in this, as well as future issues of Juniata Magazine—and, as always, we welcome your suggestions and comments.

Warm Regards,

The

Thomas R. Kepple, Jr.

Uncommon Outcomes

The Uncommon Outcomes Campaign kick-off brought together students, alumni and friends who celebrated the past, and set their sights on the College's exciting future.

Student Research Opens Up New Worlds

The National Conference on Undergraduate Research gives life to student projects and shows students how they stack up against their counterparts from more than 400 colleges and universities nationwide.

Faculty-Student Relationships Make the Difference

For Juniata professors, students are at the center of it all – research, teaching, committee work, advising and more. This "studentcentral" principle gives Juniata students a special chance at success.

Juniata College Launches \$70 Million Campaign

ilestones representing points of change and evolution have marked the history of Juniata College. Certainly the first milestone for the new Brethren's Select Normal School was the acquisition of land, and the subsequent construction of Founders Hall. The structure was a symbol of permanence and stability for the still fledgling school.

In the 122 years that followed, buildings were constructed, the faculty grew, the numbers of students increased, and the reputation of the College on the Hill as a place of exceptional higher learning was firmly established.

On April 15, the sight of another milestone in Juniata's history became more clear as the College launched the most ambitious fund drive in its history — the \$70 million *Uncommon Outcomes Campaign*. Not since the unprecedented post World War II boom in construction and growth has the College anticipated the kind of transforming plans as those laid out in the *Uncommon Outcomes Campaign*.

According to plans unveiled at the launch, the seven-year campaign will raise funds in the following categories:

The Juniata Fund...to meet the daily operating requirements of the College and make education affordable to all talented students.

The Juniata Fund (\$1 million per year for seven years) .. \$7,000,000

The Campaign for Excellence in Science...to set new standards for undergraduate science education.

William J. von Liebig Center for Science	. \$20,000,000
Raystown Field Station	5,000,000
Faculty Chair	1,500,000
Faculty Development & Research	375,000
Current Science Initiatives	4,000,000

\$30,875,000

The 125th Anniversary Campaign...to preserve Founders Hall as the architectural symbol of Juniata for past, present, and future students.

The Campaign for the Arts...to increase student participation in and love for the arts by providing them with the facilities and resources to entertain and inspire.

Performing Arts Center	\$4,500,000
Endowed Arts Scholarships	. 2,000,000
Endowed and Supported Faculty	1,200,000
Juniata College Museum of Art: Increasing the Collection	50,000

\$7,750,000

The Campaign for Entrepreneurial Leadership...to prepare students to enter demanding 21st century commerce, and to exploit technology within their disciplines.

The Center for Entrepreneurial Leadership	\$4,000,000
Endowed Information Technology Department	3,000,000
Entrepreneurial Venture Capital	1,000,000
Endowed and Supported Faculty Chairs	2,000,000
Faculty Development & Research	250,000
Endowed Entrepreneurial Leadership Scholarships	2,000,000

\$12,250,000

The Campaign for the Future...to ensure that the College's primary function of giving its students the best possible education will endure and prosper.

Endowed Scholarships	\$4,000,000
Endowed and Supported Faculty Chairs	. 2,000,000
Endowed and Supported Faculty Development & Research	375,000
Endowed Program Support	. 1,000,000
General Endowment	. 1,750,000

\$9,125,000

The Uncommon Outcomes Campaign, which has been in the quiet phase of fund-raising for two years, will officially conclude June 30, 2005. As announced at the launch dinner, the campaign has already raised in excess of \$49 million toward the \$70 million goal.

In his remarks before the dinner crowd of 300 trustees, alumni and friends of the College, Juniata President Thomas R. Kepple praised the hard work and dedication of campaign chair Barry Halbritter '65 and trustees chair Bob Wagoner '53. "If optimism, hard work, and commitment will carry us to success, there is no one better to lead us than Barry Halbritter," Dr. Kepple noted. "The same is true for Bob Wagoner who chairs the trustee portion of the campaign. I've had the pleasure of working with many trustees from other colleges on campaigns, and none of them come close to Barry and Bob. Not only are they willing to ask for contributions, but they with Marlene Halbritter and Donna Wagoner, have been significant donors themselves.

"We have been blessed in this campaign by a number of extraordinary gifts, by serious people who believe deeply in the value of a Juniata education," he continued. "You know already a great deal about the gift from William J. von Liebig—at \$18 million—one of the largest gifts ever to a liberal arts college in Pennsylvania. The building and the programs it funds will propel our biology and chemistry programs from among the best to among the few at the top of undergraduate science."

For decades, Juniata has been recognized for its uncommon strength in the sciences. The Campaign for Excellence in Science will allow the faculty and students to continue the work that has earned that well-deserved reputation.

Campaign kick-off attendees enjoy both the exciting events and the beautiful weather.

Freshly tie-dyed T-shirts dry in the soft spring breeze. The tie-dye booth is a regular at the student celebration, Springfest, that coincided with the Uncommon Outcomes Campaign launch.

More than 30 percent of the 75,000 square-foot William J. von Liebig Center for Science will be devoted solely to areas where faculty and students can continue working hand-in-hand. The \$20 million building will house the College's biology and chemistry programs. Juniata students will be introduced to the latest technology and equipment, including laboratories for cell and tissue culture, atomic and magnetic resonance spectroscopy and chromatography as well as a biological separations room.

The building, to be located between Founders Hall and Lesher and South dorms, also will contain a 125-seat lecture hall, computer labs, classrooms, seminar rooms, faculty and secretarial offices, study lounges, a darkroom and other support spaces. The building will be two stories high at the front and three stories high at the rear (17th Street) due to the slope of the land. Site clearance for the von Liebig facility is scheduled to begin this summer with construction scheduled for completion in fall 2002.

In addition to the balance of the funds needed for the science center, The Campaign for Excellence in Science also will raise \$5 million for the Raystown Field Station. Improvements there may include construction of dorm and research spaces to allow faculty members and students to live and learn on site.

"You have also heard about our second largest gift," President Kepple continued, which will endow the new information technology program at Juniata—a cutting edge program based on the skills gained in the liberal arts plus knowledge about information technology. I have asked our anonymous donors

Hundreds basked in the sun while enjoying live music on Oller Lawn.

to allow me to acknowledge them tonight. Their story begins like many of yours. They met at Juniata and formed a lifelong friendship that has nurtured them and helped them achieve remarkable success in all aspects of their lives. For the many ways they have loved and served Juniata, I want to express our deep appreciation to Irene '58 and John Dale '54.

"While these extraordinary gifts create the possibility of a campaign larger than we could have dreamed about a year ago," President Kepple said, "we will need the help of every friend of Juniata at all gift levels to reach our \$70 million goal."

President Kepple asked everyone in the audience to spread the word that there is a place for everyone in the Uncommon Outcomes Campaign. "Please let everyone in the Juniata family know that every gift — from \$10 to \$18 million, whether it is an annual gift or a bequest - every gift counts and is appreciated and needed to help us prepare this next generation of students for the challenges of the 21st century."

The launch of the Uncommon Outcomes Campaign coincided with the spring meeting of the board of trustees and the annual student celebration "Springfest." The weekend featured live bands, picnics and movies on the quad. Activities booths featured tie-dyeing, pie throwing, and face painting, among other things. And what would Springfest be without the annual ritual mud-volleyball, an event that is always guaranteed to draw a crowd.

Students, donors, trustees and friends of the College became one on April 15, sharing their common bond as loyal members of the Juniata community. The weekend became a celebration of spring as the sun shone throughout the week-

An unlucky participant prepares to get a pie in the eye. The pie-throwing booth is a Springfest regular with faculty and administators among those on the receiving end of the pies.

end-long festivities. It was a celebration of four years of hard work for Juniata seniors and a celebration of a lifetime of memories for the many Juniata alumni who returned to campus.

NCUR Helps Students Understand the Importance of their Research

tudent research can be quite a bit like the story of Alice's Adventures in Wonderland. It all starts as a mild curiosity while looking down a rabbit hole, and eventually opens up into a whole new world that forever changes how we view ourselves, our limits and our dreams.

That analogy takes on a literal meaning for Philip McManus '00, whose thesis titled, "Fainting in Coils: Dorothea Tanning in Wonderland," relates the Lewis Carroll book to works by artist Dorothea Tanning, known for her Surrealist paintings.

"The similarity between Tanning's career and Carroll's work was insanely close," McManus said. And, sounding a bit like Alice and her rabbit hole: "The more I delved into the comparison of the works and every time I found something new, I would get so excited. It really brought back my passion for academia." McManus said his research became "a child of sorts."

Student research is an important part of a Juniata education for just that reason – to excite students. It opens doors for them and gives them a sense of confidence with laboratory techniques and ownership over new discoveries - not to mention the fact that the experience in independent research puts them a step ahead of the rest at graduation.

The culmination of McManus' work was a presentation at the National Conference on Undergraduate Research (NCUR) held April 27-29 at the University of Montana, Missoula. "I put a semester's worth of work into this project and I see the opportunity at NCUR as giving it life by introducing it to others."

Since its inception in 1987, NCUR has become a major annual event drawing more than 2,000 undergraduates, faculty and administrators from more than 400 colleges and universities around the United States, according to the

NCUR Web site. Students, selected to attend after going through a national NCUR application process, give 15minute oral presentations, display and defend posters, and give artistic performances.

Students tend to get a lot out of the experience, said I. David Reingold, professor of chemistry and NCUR chaperone. "No. 1 is communication skills. The fact that they're going to do this makes them prepare their work in a presentable way," he said. "They really gear up and try to make professional presentations. And then they have to stand there and defend what they've done. It's also an opportunity to see, from their point of view, how they stack up with people from elsewhere ... many of whom are going to be at graduate school with them. One of the prime functions of this is mixing with other students."

In addition to McManus, 10 other students attended the conference with research topics that addressed 19th century artists, leaf stomata, small molecule models and, specifically, "The Synthesis of 1,5-Methylenesemibullvalene: Selenium Dioxide Oxidation," a poster presentation given by Dale Mowrey '00, a chemistry student.

Mowrey said working on the research project in collaboration with Dr. Reingold has greatly enriched his Juniata education. "For a chemist, it's the equivalent of acquiring job experience and getting credit for it," he said.

Part of the excitement of student research is watching it magically unfold before a student's eyes.

McManus came up with his fanciful research topic after completing a project on Carroll, who was an artist as well as a writer and mathematician, for Karen Rosell's 19th Century art class. The project focused on how Carroll influenced the pre-Raphaelite Brotherhood - a 19th century group of British artists - and how the Brotherhood, in turn, influenced Carroll.

"It was around that time that Karen suggested I do the thesis," McManus said. "I wanted to explore this relationship more, but see how Carroll influenced 20th Century artists. Surrealism

seemed like the obvious connection." Eventually McManus stumbled across a book about women in the Surrealist movement, and a few weeks later saw Dorothea Tanning's painting Birthday in the Philadelphia Museum of Art. "As soon as I saw it, I knew that I had to focus on her." he said. It turns out that Tanning read Carroll and other Victorian authors during her childhood as a means of escape from her sterile, Midwestern upbringing, McManus said.

"The opportunity for students to do extensive research on a topic of their choice, and then to write a thesis, is invaluable," Dr. Rosell said. "The chance to present their research at a national conference, where others, especially in the same discipline, can see what they are working on is a tremendous opportunity. They are able to see that what they have done ranks up there with the very best in the nation. As a result, they gain more confidence, and return to campus energized and excited."

And there's more to NCUR than just presentations and speakers. Mowrey planned on networking at NCUR. "There will be other chemists who I am excited to meet and who may, in the future, be good contacts. That, along with the experience of presenting at a national conference are the two things I really am looking forward to."

Chemistry students like Mowrey are "hot properties to graduate schools," Dr. Reingold said. "They get in lots of places and I think that a great deal of that is attributable to the research that they do. Grad schools know that students from Juniata not only know the facts, they've been in the

> labs. They know how to analyze. In fact they're mini graduate students already. They're ready to hit the ground running when they get to graduate schools."

Research is so important in many disciplines that an attempt has been made to fully integrate it into many classrooms, said Provost James Lakso. NCUR is a place where students can see that their research is paying off. "It's very important that our students see that the kinds of things they're doing are every bit as important as the kinds of things students are doing at larger colleges and universities."

Juniata students and their chaperones pause before boarding the van that will take them to Pittsburgh International Airport. From there they caught a flight to Missoula, Montana for the National Conference on Undergraduate Research. Pictured are: (1-r, kneeling) Lisa Petrella, Anna Becker, Dale Mowrey, Nichole Book, Philip McManus; (1-r, standing) I. David Reingold, professor of chemistry, Jeff Morse, Shannon Powers, James Kabrhel, Brian Eggert, Mieke Fay, Dan Gallo and Jeffrey R. Demarest, associate professor of biology and chair of the biology department.

Professors Who Care About Their Students

Faculty-Student Relationships Create Success for Juniata Students

Juniata professors have always taken extra care to develop close, nurturing relationships with students, making them the central motivation behind every task, activity and effort. Students are at the center of it all – research, teaching, committee work, advising, and in some cases, even extracurricular pursuits. The faculty-student relationship is one of the many things that makes Juniata an extraordinary place, and its graduates successful.

As the College gears up to begin construction on the William J. von Liebig Center for Science, and looks ahead to the state-of-the-art facilities the 75,000 square-foot building will provide, there is the need to reflect upon the "student-central" principle upon which teaching and learning at Juniata is based.

The facilities at the new von Liebig building may make the development and maintenance of those special relationships with students even easier for the chemistry and biology professors who will work there. "The new science building has been designed with that in mind," said Kenneth Rockwell '57, professor of biology.

The von Liebig Center will hold several classrooms, seminar rooms, student lounges, informal gathering spaces, four large teaching laboratories, and several student research spaces that will support the needs of faculty and students in collaborative research pursuits.

Juniata professors have always gone the extra mile to ensure that they connect with students. The new facilities will help them continue to connect in new and profound ways.

"Relationships are primary in every walk of life and that's what we cultivate here," said Debra Kirchhof-Glazier, professor of biology. "We challenge, but nurture."

Dr. Kirchhof-Glazier's work as chair of the Health Professions Program puts her at the front lines, working to prepare students for the challenges of medical and other professional schools and making calls on their behalf to medical programs across the country.

In addition to acting as a support system for students preparing to enter health professions, the Health Professions Committee – a 13 member group that gives direction to the program – trains students in interviewing techniques, establishes permanent files for letters of recommendation and helps students apply to medical schools and other professional programs in the health fields. Faculty members from a variety of disciplines serve on the committee. "That's important because medicine is more than science," Dr. Kirchhof-Glazier said. "Medicine is an art. Medicine is ethics. Medicine

involves history and more."

The dedicated committee

members ensure that

"Medicine is an art. Medicine is ethics. Medicine involves history and more."

"Our instructors continue to see instruction as their primary responsibility,"

students are on the right track, cautiously redirecting them to other fields within the

health professions if the students' talents don't match their goals. In everything, the student is most important. "Absolutely paramount. I get more from them than they do from me. I love them!" Dr. Kirchhof-Glazier said.

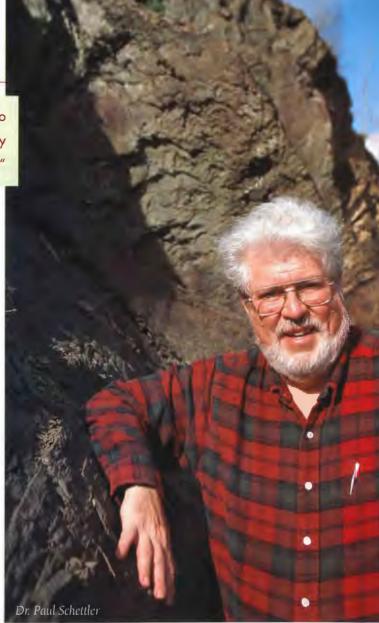

Paul Schettler, Jacob H. & Rachel Brumbaugh professor of chemistry, agrees that the students and the close relationships with them are "what I live for. I value that above all else."

Dr. Schettler found that one way he made connections with students was through research. For about 20 years, Schettler found ways to get students involved in hands-on research in the area of shale gasification. The project began in 1973 during an energy crisis. When Columbia Gas Corp. drilled gas wells, the company noticed that a great deal of gas would escape through the shale, a supposed impermeable substance. "So we undertook to measure the amount of gas in the rock and the rate that the gas went through the rock," he said.

Not only were students involved in lab analysis and doing site work for many of the 20 years, but Dr. Schettler claims that on that project and many others, "they do the bulk of the work." Dr. Schettler also pointed out that it's not just work, work, work all the time. He slips in the occasional pool party for his students in the summer.

Many of Dr. Schettler's students are hired by the companies that contract work with him. In 1997, Dr. Schettler started working on a topic he hadn't done much with since his post doc in 1965 – gas chromatography. That work was done through a contract with Restek Corporation in State College. "Restek ends up hiring a lot of the people I put on the project," he said. "A lot of people want to hire Juniata grads. These are students who know what they're doing in the labs."

Dr. Schettler is looking forward to the new von Liebig building for a number of reasons including the improved laboratory facilities. He also believes the small conference rooms will provide a better environment for small group discussions among students. "That's going to have the biggest impact although clearly, the safer, more convenient facilities will have their affects as well," he said.

With all the extras that Juniata professors supply in the way of hands on research and special attention, they keep the student-central principle close at hand.

"Our faculty continue to see instruction as their primary responsibility," Dr. Rockwell said. "At Juniata, the first reason to do research is to augment the instruction of students and if discoveries of new things are made, that's the icing on the cake."

Those relationships between faculty members and students pay off in a number of ways.

"If you're lucky, they walk on past you into their own futures," Dr. Rockwell said. "The goal is for them to surpass, not to match you. I think the only satisfaction a faculty member has is the students they produce. For those students who truly succeed, faculty can take a bit of satisfaction in knowing they had a piece of that success story." •

GAMPUS NEWS

2000 Prayers participants wait for the sun to peak over the horizon before beginning their prayers for world peace.

2000 Prayers: A Prayer a Day for Peace

Every morning this year, before the break of dawn, someone has walked the path to the Elizabeth Evans Baker Peace Chapel to pray for peace.

Just as the sun peeks over the horizon, someone rings a bell to begin the ceremony. An interfaith prayer is read and a moment of silence is held before the leader reads aloud a prayer of their choice.

Thanks to the dedication of its participants, 2000 Prayers, a daily prayer discipline organized by The Baker Institute for Peace & Conflict Studies, Juniata's Campus Ministry Board and several local churches in the Huntingdon area, will continue through the end of the year.

"(The prayer services) are a daily opportunity for the community to remember those who suffer from war and injustice and to ask for

the strength and wisdom to work for a more peaceful world," said Andy Murray, director of the Baker Institute. All are welcome to attend the services or participate in leading a week of prayers at the chapel.

Dawn was a very special time for Elizabeth Evans Baker. When she first visited the Peace Chapel site with her husband, John Baker, she thought of it as a special place where people could take strength for the new day at dawn, and peace and rest for the evening at sunset.

The chapel, located in Juniata's Baker-Henry Nature Preserve, was built in 1989 by architect and sculptor Maya Lin, who designed, among other monuments, the Vietnam Veterans Memorial in Washington D.C. and the Civil Rights Memorial in Montgomery, Ala.

Omicron Delta Kappa Circle Established

A circle of Omicron Delta Kappa. The National Leadership Honor Society, was officially established at Juniata April 18. ODK emphasizes the development of

the whole person, both as a member of the college community and as a contributor to a better society.

The charter class was made up of 16 new inductees -13students, two faculty representatives and one administrator – and three ODK alumni members, including Thomas R. Kepple, Juniata president.

Qualifications for student membership in ODK include junior or senior status and ranking in the upper 35 percent of the class. Other criteria include exemplary character and notable achievement in at least one of five major phases of campus life: scholarship; athletics; campus or community service, social, religious activities and campus government; journalism, speech, and the mass media; or creative and performing arts.

"We don't have anything like this presently," said Teresa May '01, vice president of Juniata's ODK circle and student government president. "This is something new for students to strive for and accomplish."

May was a driving force behind establishing the ODK chapter at Juniata. Her motivation came from Janice H. Fodor '58, faculty secretary for the Elmhurst College circle, director of The Learning Center and assistant professor of English at Elmhurst. Fodor and May bumped into each other at a Juniata committee meeting.

"The ODK circle encourages student, faculty and staff interaction, brings prestige and reflects a commitment to leadership that I believe has always been important to Juniata," Fodor said. "Alumni and honoris causa memberships may be included as well. This is a fine honor for someone who has done much for the college."

In the future, Juniata ODK members plan to assist in the first freshman class meeting, at the Spring Awards Banquet, with the President's welcoming events and in other public college events.

"Being accepted into ODK is another indication of the status and the reputation Juniata has among our peers nationwide," said Dr. Kepple.

Disability Recognition Week n Success

Juniata and Huntingdon-area community groups celebrated the first-ever Disability Recognition Week April 3-8.

"The purpose of Disability Recognition Week was twofold; to educate about disabilities and most importantly, to share and affirm the struggles and triumphs experienced by people with disabilities and their families," said Debra Kirchhof-Glazier, coordinator of Disability Recognition Week and Juniata professor of biology.

"The idea to have a Disability Recognition Week came about when our son, Darron, was featured in a new book called, Just As I Am, which celebrates 40 people with disabilities across the country," Dr. Kirchhof-Glazier said. "The authors, Ellen Dossett and Carolyn Sherer, agreed to come to Juniata to talk about their project. This sparked a positive response from several people on campus and in the community who decided to follow up the authors' presentation with other activities and events centered around this theme. What emerged was 'Disability Recognition Week.""

Events commemorating Disability Recognition Week included: Prayers and Meditations for the Disabled at the Elizabeth Evans Baker Peace Chapel; a lecture by Dossett and Sherer; Speak Out, an event where those with disabilities and their advocates were invited to share their stories; and Seeing Through the Eyes of the Blind, a presentation by Scott Shreffler '02, a Juniata student with a visual impairment. J.C. Blair Memorial Hospital sponsored Mental Health and Physical Health: The Inseparable Combination and various videos and movies were shown.

One high point was a proclamation made by Huntingdon Mayor Ethan C.B. Lashlee declaring April 3-9, 2000 as Disability Awareness Week in Huntingdon.

"The week went extremely well as far as the quality of the programs, and those who attended really got a lot out of it," Dr. Kirchhof-Glazier said. "There were magical moments."

CAMPUS NEWS

Juniata College Museum of Art Presents the Stottlemyer Collection

"Selections from the Worth B. Stottlemyer Collection" officially graced the walls of the Juniata College Museum of Art Feb. 4. The

opening reception held that night was attended by the collection's donor, Quayton R. Stottlemyer '51.

About 40 artworks from the 400-plus piece collection that includes 17th through 20th century European and American

paintings, prints, drawings and portrait miniatures will remain on display at the museum for an indefinite time. The collection greatly expands the museum's permanent collection.

Notable examples of the paintings in the collection include significant landscapes and seascapes by Asher B. Durand, Arthur F. Tait and Ralph Blakelock. British and American portraits in the collection are attributed to Sir Joshua Reynolds, Jane Stuart, Samuel Morse, Anna Peale and William Sydney Mount. Works by European artists include paintings attributed to Gerard Dou, Egbert van Heemskerck and Sebastiano Conca. The collection also includes over 70 portrait miniatures from the 18th and 19th centuries. In addition to an etching by Rembrandt, prints and drawings in the collection are attributed to Turner, Whistler and selections from Hiroshige's Fifty-Three Stages of the Tokaido.

"The Worth B. Stottlemyer Collection has been a true catalyst for promoting the fine arts at Juniata College," said Nancy J. Siegel, museum curator. "The museum is planning innovative exhibitions and educational programs based on the collection for the greater central Pennsylvania community."

Nancy Siegel, Juniata College Museum of Art curator, Phillip Earenfight, museum director, and Quayton R. Stottlemyer '51 contemplate one of the paintings in the 400-plus piece Worth B. Stottlemyer Collection of Art.

Rebecca McClaine

Rebecca McClaine '00 received an Honorable

Mention in the 2000 All-USA College Academic Team Challenge by the national newspaper, *USA Today*. The prestigious competition credits "outstanding undergraduates for their grades, awards and activities, leadership and ability to use their academic skills outside the classroom," according to the newspaper.

McClaine, who studied pre-medicine and biology, was student government vice president, president of the Health Occupations Students of America, secretary of Laughing Bush, a tutor, a member of the Emergency Services Club, and the list goes on. Academic honors included a National Merit Scholarship, a Presidential Scholarship, the Juniata College Honor Society, Omicron Delta Kappa-The National Leadership Honor Society and numerous appearances on the Dean's List. She will attend

Duke University School of Medicine in Durham, N.C.

McClaine's essay for USA Today concerned a summer research position in the laboratory of Greg Stahl '84 at the Brigham and Women's Hospital, Harvard Medical School.

Debra A. Kirchhof-Glazier, Juniata professor of biology, nominated McClaine for the competition. "Becca is one of those rare people who is intellectually gifted and extremely capable in all spheres, yet is down-to-earth," she said. "As a shaker and a mover, she is often at the center of making things happen. Perhaps the most amazing thing about her is that she does it all with a sense of quiet calm. I have every confidence that Becca will be a leader in her field and a credit to her community."

This was the second straight year that a Juniata student was honored in the USA Today competition. In 1999, Sharon Simpson '99 was named to the All-USA College Academic Third Team.

Physics Phun Night

Physics Phun Night is an evening when a bed of

nails becomes a bed for a Juniata professor, messy hair is cool and children could be engulfed in giant soap bubbles.

That's why the second-annual Physics Phun Night April 13 had more than 300 attendees - mostly children - for the second straight year. The event is sponsored by the Society of Physics Students and the Physics Department

Students and professors showcased their most fascinating

demonstrations of physical principles. "The goal is to provide a fun and exciting evening for the college and community, particularly the kids, to show them how much fun science can be," said founder Jim Borgardt, Juniata assistant professor of physics. "Our aim is for everyone to have a great time and perhaps

Physics Phun Night participants attempt to pull a cloth out from under tea cups.

even learn a little during the evening."

Demonstrations included the hair-raising Van de Graaff generator, burning bubbles, giant smoke rings, liquid nitrogen experiments and a diffuse dust explosion. This year's Physics Phun Night also featured: a Jacob's Ladder experiment in which lightening traveled up an antenna; a fire extinguisher that sent an ordinary pencil through a piece of plywood; and giant soap bubbles large enough to envelop children.

The highlight of the show was witnessing Dr. Borgardt lie on a bed of nails as Dave Hsiung, chair of Juniata's history department and W. Newton & Hazel Long Associate Professor of History, used a sledgehammer to break a cement block on his chest

It may not stop there. Next year, Dr. Borgardt hopes to integrate a walk across a hot bed of coals into Physics Phun Night.

Student Art Exhibition

Iuniata students had a chance to display their paintings, prints, photographs, ceramics and com-

puter art at the Juniata College Museum of Art Student Exhibition March 17 through April 1.

"It is some of the best of the freshest, most current work Juniata students are producing," said Jack Troy, associate professor of art. The exhibit included between 20 and 30 works created by students in the 1999-2000 academic year under the guidance of Prof. Troy, Alexander McBride, professor of art, Roberta Moore,

lecturer in art, and Mary Vollero, lecturer in art.

The student show. held annually, is vitally important for a number of reasons, Prof. Troy said. The show authenticates the

creation of original works of art as something current and ongoing, he said. "It is also important to remove the work from the studio where it was made, placing it in a setting where it can be best appreciated - just as chefs serve their food to guests at a dining table instead of inviting them to the kitchen to eat."

Khara Koffel '00, who studied studio art and art history and was one of this year's exhibitors, said "seeing your work presented in the gallery is like nothing you've ever experienced before. It fills you with pride and hope for what you can do and will be able to do. At the same time it is horrifying. You don't know how to react to people because you don't really know if they understand what you do. But when it's all said and done and you see your work in such a beautiful place, it's all worth it."

Bailey Oratorical Winners Announced

For the second straight year, judges selected two first place winners in the

2000 Bailey Oratorical. It was only the fourth time such a tie has occurred since the original Bailey Oratorical Award was established in 1915 by the Honorable Thomas F. Bailey, president judge of Huntingdon County from 1916-1936.

Jeffrey Bellomo '00 and Brian Olsen '01 shared top honors this year for their persuasive and insightful speeches addressing the topic, "How does the presence of violence shape our lives?" All seven of the oratorical finalists addressed that question Feb. 21 to a crowd in Juniata's Ellis Hall Ballroom. Bellomo, who studied political communication, and Olsen, who studies zoology, each received a \$500 first prize.

Matthew Peters '01, who studies communications and politics, took second place and a \$300 prize, and third place and \$200 went to Colleen McLaughlin '01, who studies communications and marketing management. The other three finalists selected from an initial pool of 22 competitors were 1999 winner Sarah Worley '00, Parisha Shah '01 and Kenzie Leung '01.

Judges for this year's final competition were Dr. Arthur Hayes '71 of Blue Bell, Pa., chair of the Montgomery Hospital emergency room and president of the medical staff; Jill Hayes '69 of Blue Bell, Pa., elementary school teacher; and Stephen

Dunkle from Allensville, Pa., assistant director of government relations for the Pennsylvania State Education Association.

An enhanced endowment contribution given by Judge Bailey's son-in-law, Colonel Sedgley Thombury, made the \$1,000 in prize money possible. In addition, the names of the first place winners will be permanently inscribed on an antique loving cup presented to the college by Colonel Thornbury's son, Thomas Bailey Thombury.

Bailey Oratorical finalists pose with Juniata President Thomas R. Kepple Jr. after the competition. Pictured are (l-r): Senior Sarah Worley, junior Kenzie Leung, junior and third-place winner Colleen McLaughlin, junior and first-place winner Brian Olsen, junior and second-place winner Matthew Peters junior Parisha Shah, senior and first-place winner Jeffrey Bellomo and Dr. Kepple.

Juniata Magazine CLASS NOTES

Alumni Sugaring Report 2000

It was a lean year for syrup production at RFS. The February thaw led to early tapping and the warm weather the first week of March effectively ended the season. We had only three substantial runs and only produced 33 gallons of syrup this year, compared to over 50 gallons last year. We also lost some of the water through leaks in the tanks and tubing. The sugar concentration in the water this year was also 1/3 below average, probably because of the previous summer's drought. This low sugar concentration resulted in the production of rather dark (but tasty!) syrup this year.

This year also marks some steps forward in the sugaring program with record participation by students and alumni, the formation of an official sugaring club on campus (The Juniata Sapsuckers), and a new custom-designed jug exclusively for Juniata College. We have already put away wood for next year and plan to do some firebox and tank repair this summer. Mark your calendars for the weekend of March 3rd, 2001, for next year's alumni sugaring weekend.

Special thanks to the Russ Keat '83 family, Greg '84 and Cindy '82 Donaldson, and students Brian Olsen and Dave Robbins for their leadership with the sugaring operation. Also, a special thanks to Tammy Evans '96 for feeding everyone during alumni sugaring weekend. We're already looking forward to next spring.

Visit the Sugaring Web page - http://www.juniata.edu/station/syrup/

Chuck Yohn

Director, Raystown Field Station

Helen (Riffle) Croyle

lives in a home at the Maria Joseph Manor Retirement Center in Danville, Pa. Having been a music student, she is enjoying a number of opportunities to play the piano and organ.

Arlene (Henry) Worsham

joined a military tour group to observe the 55th anniversary of World War II. During the war she served with WAC and was stationed in England for 18 months.

Edmund E. Minaya

was appointed crime watch coordinator for the Century Village Complex. In addition, he was elected vice president of the All Wars Veterans Organization in Pembroke Pines, Fla. He also serves as a member of the Kings Choral Group in southeastern Florida.

William J. Pastuszek

was recognized by the Lower Chichester Township Board of Commissioners in Delaware County, Pa., for his improvement of properties and contribution to the community. The board of commissioners enacted a resolution on Feb. 21, 2000 to change the name of Ormond Street in Lower Chichester to Pastuszek Boulevard. The commissioners cited William for his development and redevelopment of commercial, industrial, and residential tracts in Lower Chichester and commended him for his dedication and use of private funds to improve the properties he owns in the township.

William E. Carpenter

and wife Madelyn will celebrate their 50th wedding anniversary on Sept. 16, 2000.

CLASS NOTES

Kaydonna (Bubeck) Kisel

represented Juniata College as a delegate at the installation of President John R. Brazil at Trinity University in San Antonio, Texas, on Feb. 12, 2000.

Barbara (Orner) Cohen

sang with the Mendelssohn Choir of Pittsburgh in Rosenberger Auditorium, Oller Hall on Feb. 5, 2000. She has been singing with the professional chorus for 20

Warren Haddox Sothoron

retired from orthopedic surgery in July 1999. He lives with wife Jackie on a farm in central Maryland, where they find themselves busy with grandchildren, travel, museum hopping and relaxing.

Herbert E. Deuchar

retired after 39 years of teaching history at Wall Township High School in June 1999. He coached soccer at Wall for over 20 years and was scoutmaster for Troop #41 in Ocean Grove for 25 years. He also served three terms as fire chief and fire commissioner in Ocean Grove. He and wife Carol reside in a new home they built in November 1999 in Halifax, Pa.

Barbara (Shaffer) Gumbiner

was promoted to director of administration at the Washington, D.C. Office Institute of Alternative Education.

Kathleen (Kimmel) Strang

recently performed as a soloist, singing in the 100th anniversary year final concert of the Battle Creek Symphony Orchestra. She performs with many other groups in Battle Creek, Mich.

Robert P. Hueglin

is an executive coach, working primarily with mid-career professionals in transition. He resides with wife Nancy and son Brian in a suburb of Dallas. Texas, and would love to hear from other Juniatians in the area.

Thomas M. Stauffer

accepted a position as the chief executive officer of Young Presidents' Organization International in Irving, Texas. The organization is an association of corporate chief executive officers and presidents under the age of 50. Previously, Tom served as president of Golden Gate University in San Francisco, Calif.

Nancy (Williams) Peters

retired from employment with the state of Colorado on March 31, 2000. She was division director in the state Medicaid program. After taking the summer off, she will be seeking a new career in an undecided field.

Patricia (Cauffield) Birt

accepted a new job as supervisor of the Atlantic County Women's Center in Northfield, N.J. The center provides shelter for battered women, and domestic violence and sexual assault counseling services.

Lila (Eggert) Darling

was promoted to manager of the Cardiovascular Risk Reduction Program of the Pennsylvania Department of Health.

Joseph E. Peters

is an associate professor of psychology at Geneva College in Beaver Falls, Pa. He focuses mostly on the college's graduate counseling program.

Robert G. Dapp

has had his portrait work published in the 2000 "Tapestry of Dreams" by the International Library of Photography, honoring photographers from all over the world.

Loanne L. Snavely

was promoted to head of instructional programs at the university libraries of Penn State University in University Park, Pa.

Daniel C. Herzog

has had an article accepted for publication in Postcard Collector, a leading U.S. postcard magazine. The article is entitled "How to Run a Successful Post Card Club Show."

Walter C. **Prozialeck**

was the inaugural recipient of the Irvin M. Korr Award

presented by the American Osteopathic Association's Bureau of Research. The award recognizes excellence in basic biomedical research by a faculty member at one of the colleges of osteopathic medicine in the United States. Walter serves as professor and chairman of the department of pharmacology at the Chicago College of Osteopathic Medicine/ Midwestern University in Downers Grove, Ill.

Edward C. Williamson

retired from coaching baseball at Governor Mifflin High School in Shillington, Pa. He credits Juniata College baseball coach Bill Berrier for preparing him for a career in which he would place more than 30 players in Division I schools and coach a state championship team in 1997. He continues to teach American history at Governor Mifflin.

Geoffrey W. Clarke

was promoted to vice president of construction at New Enterprise Stone & Lime Co., Inc. in New Enterprise, Pa.

Robert N. Trigiano

received the American Society for Horticultural Sciences 1999 Education Publication Award for his paper entitled "Laboratory Exercises on DNA Amplification Fingerprinting for Evaluating the Molecular Diversity of Horticultural Species" that appeared in HortTechnology, 1998. He also was awarded the 2000 L.M. Distinguished Research Award for his paper "Genetic Signatures from Amplification Profiles Characterize DNA Mutation in Somatic and Radiation Induced Spores of Chrysanthemum" published in The Journal of the American Society of Horticultural Science, 1998. The second edition of Bob's book Plant Tissue Culture Concepts and Laboratory Exercises published by CRC Press was released in 1999. Bob was also recently appointed professor and interim head of the department of ornamental horticulture and landscape design at the University of Tennessee.

Robert J. Meacham

is president of Havenpride in Altoona, Pa.

Thomas W. Price

is daily operations manager in the department of laboratory medicine at Conemaugh Memorial Medical Center in Johnstown, Pa.

Gerald P. Dittmann

is vice president for human relations at the Centre County Hospital in State College, Pa. Jerry and his family moved from Lancaster, Pa., to State College.

Betty S. Harderode-Moore

is project manager with Zephyr Environmental Corp. in Austin, Texas, specializing in hazardous waste regulations, and soil and ground water investigations and remediation.

Vincent A. Sarni

was appointed vice president of the plastics division of Owens Illinois.

Joan (Keiser) Daly

is director of childcare at the YMCA in Pottstown, Pa.

Susan E. Kane

received her master's degree in public health from Columbia University. She works for Cornell Medical College as the clinical curriculum coordinator.

Kathleen (Smith) Rueppel

is a lecturer of German and Russian at St. Mary's University in San Antonio, Texas, and is "on call" for both Trinity University and the University of Texas at San Antonio.

Patrick M. Daly

works as a controller of Micro-Coax in Pottstown, Pa.

George I. Meyer

won a local and regional award for the Building of the Year from the Building Owners and Managers Association, a prestigious industry recognition. He also completed requirements in 1999 to earn a Real Property Administrator designation from the same organization.

Joan (Martin) Quinn

graduated from Columbia Theological Seminary on May 14, 2000.

John Kuriyan

was awarded one of four Excelsior Leadership Awards, given to prominent Indian-Americans who have shown excellence in their chosen fields. He received the award for his work on the structural biology of DNA replication and signal transduction.

Cliff B. Beaver

was appointed a managing general agent for Protected Life Insurance Company of Sharon, Pa. Protected Life is a \$200 million company operating in 22 states.

Matthew E. Blauch

was one of five people inducted into the Palmyra High School Sports Hall of Fame. He is a senior geoscientist at Halliburton Energy Services in Duncan, Okla.

Douglas L. Grossman

volunteers at an unemployment office, training unemployed persons to use the Internet for job searching. He also volunteers for his township and the National Multiple Sclerosis Society - Mid-Jersey Chapter.

Nancy (Roach) Gurdak

did a presentation at the Warren-Trumball County Public Library in Warren, Ohio, based on the book Hidden in Plain View: A Secret Story of Quilts and the Underground Railroad by Jacqueline L. Tobin and Raymond G. Dobard, Ph.D. The presentation was a part of free family programs offered at the library in observance of Black History Month.

Linda (Fultz) Cope

along with a partner, started their own business and computer consulting in eastern Pennsylvania.

Jill M. Hagenberger

is a full-time doctoral candidate at Penn State University.

Amy (Clark) Frederick

is the director of social work at Leeway, a nursing home in New Haven, Conn. Leeway is the only facility in Connecticut to care for people with HIV/AIDS.

Robert T. Greenlee

received his doctorate in epidemiology from Emory University in March 2000. He will continue to work for the national office of the American Cancer Society in Atlanta, Ga., as the program director for cancer surveillance.

Steven J. Yerger

is sales manager at New York Life in Latham, N.Y.

Michael A. Gifford

is the desktop computing coordinator at Kutztown University in Kutztown, Pa.

Patricia (Schofield) Talley

and her family moved to a new home in West Chester, Pa. They would love to hear from Juniatians in the area.

George N. Zanic

is president of the Huntingdon County Bar Association. He remains a partner in the law firm of Bierbach, McDowell, McMinn and Zanic.

Christine E. Gloss

accepted a promotion as regional professional development coordinator at the TIU Adult Education and Job Education Center in Lewistown, Pa. She also provides professional development in English as a Second Language and technology. Christine currently resides in Mifflintown, Pa.

Rodrigo Jimenez

is manager of corporate communications for the Cott Corporation in Toronto.

Dana (Glenny) Lynch

was promoted from probation officer to court officer with the Alachua County court services department in Gainesville, Fla. She assists domestic violence offenders in complying with their court ordered conditions and in changing their battering behaviors. With her co-workers she is developing a maximum supervision program to work with repeat offenders and/or high risk for failure cases. They hope to have it running by the end of the year. Dana is mother of Sara, age 7, and Sean, age 3.

Richard O. Russell

received the 1999 Annual PPG Paragon Guild Award for outstanding sales achievement. He is account manager, North America direct sales and distribution for PPG Industries. Inc. Aircraft Products, located in Huntsville, Ala.

David J. Duez

accepted a promotion to computer analyst at Dynergy, Inc., a Houston-based energy marketing and trading company. He provides technology support to executives.

Todd S. Emrick

and wife Kathy continue to enjoy their life and work in the Bay Area. They welcome Juniata friends to contact them when visiting the San Francisco area.

Craig M. Miller

moved to West Chester, Pa., where he accepted a position as the director of youth and family ministry for the Calvary Lutheran Church.

CLASS NOTES

794

Bradley J. Miller

and wife Cheryl Stayton recently moved from Philadelphia to Danville, Pa., where Brad is completing his residency in family medicine at the Geisinger Medical Center.

Jeremy D. Shipman

graduated from George
Washington University in May
1999 with a master's degree in
mechanical engineering. He
works as a research scientist for
a small engineering company,
Combustion Research and Flow
Technology in Dublin, Pa.
Jeremy and wife Jennifer
(Bucci) Shipman '95 reside in
Perkasie, Pa.

'95

Russell A. Brown

works in the accounting office of a communications supply company in St. Petersburg, Fla. He attended graduate school for his master's of business administration degree.

Jennifer M. Burns

received her doctorate in December 1999 from the department of microbiology and immunology, School of Medicine, University of Maryland, Baltimore. She started a postdoctoral fellowship with a biotech company called ChemoCentryx in San Carlos, Calif.

Tracey (Wilkie) Hanlon

teaches science in the special education department at Meade Senior High in the Anne Arudel County School System. Husband **Steven C. Hanlon '96** is employed by P3 Services, Inc. in Beltsville, Md., where he is a technology consultant.

Brad J. Scanlan

is enrolled at the Philadelphia College of Osteopathic Medicine, anticipated graduation date June 2000. He was recently selected for an army general surgery internship at NCC-Walter Reed Army Medical Center in Washington, D.C.

Jennifer (Bucci) Shipman

completed a master's degree in biotechnology from Johns Hopkins University in August 1998. She is employed as a staff biochemist in the department of cancer research at Merck Research Laboratories in West Point, Pa.

'96

Amy E. Lindenmuth

was promoted to the head of civil litigation for the Mid-Atlantic States for Berks Credit and Collections.

George A. Sanders and Danielle (Tremel) Sanders '98

purchased a bed and breakfast in Red Lion, Pa.

'97

Kristen M. Nagurny

is completing her second year of service with the Peace Corps at Wewak in Papua, New Guinea. She teaches science at Mercy College – Yarapos.

Emily M. Paxton

accepted a promotion to laboratory specialist, Commonwealth Biotechnologies, Inc. in Richmond, Va.

Karla (Ross) Wiser

completed the Uniform
Examination for Certified
Accountants in May 1999 and
received her license from the
Pennsylvania State Board of
Accountancy in August 1999.
She is employed by Hearn &
Stroup and serves in the
capacity of government audit
coordinator. Karla and
husband Brian reside in
Huntingdon, Pa.

798

Brett R. Laronde

passed the National Athletic Trainers Exam and is now a certified athletic trainer.

Andrew J. McMullin

works at *The Daily News* in Huntingdon, Pa. He is staff photographer and assistant compositor for the general newsroom.

Garwood D. Reynolds

is a Spanish and French teacher and an assistant football coach at Central Davidson Senior High in Lexington, N.C.

Christopher M. Scalia

transferred to the Dickinson School of Law and is expecting to earn his juris doctorate in May 2001. He is serving a yearlong appointment as an intern at the United States Attorney's Office and plans to work this summer for Saul, Ewing, Remmick, and Saul, LLP in Philadelphia.

199

Ann L. Albeck

is an office supervisor and onsite supervisor for Adecco, a large temporary agency in Maryland.

Kevin R. Eastham

is a full-time graduate student studying geology at Purdue University.

Michelle (Koren) Corby '95

After a little more than four months as assistant director of alumni relations, Michelle (Koren) Corby '95 officially took over as director of alumni relations April 11.

Michelle, who started at the alumni office on Dec. 6, has been building on her Juniata education since she graduated with a POE in English and Theatre Studies five years ago.

In 1998, Michelle, originally from

Braddock Hills, Pa., earned a master's degree from Duquesne University in education with an emphasis in teaching secondary English. Michelle taught 8th grade language arts in the Evesham Township School District in New Jersey for about a year and a half. On Oct. 10, 1998, she married Simon Corby, who attended Juniata in 1994-95 as an exchange student from England. Simon and Michelle moved to Hollidaysburg recently when Simon changed employers.

Among the current priorities for the Alumni Relations office are getting yearly schedules in place for regional clubs, encouraging the Graduates of the Last Decade (GOLD) to get involved and urging alumni to host small Juniata gatherings at their homes. Michelle is working on incorporating a GOLD tour and an educational tour into the alumni travel program as well as assisting with plans for A Celebration of Juniata Women to be held next April in conjunction with Juniata's 125th Anniversary.

"I also need as many people as possible to continue to volunteer five hours or more to the college," Michelle said.
"Reunions, homecoming, hosting events, nominating a student for a scholarship, meeting prospective students in your home area – all of that would count. There are many ways to stay connected even without having to come back to campus!"

Michelle welcomes your calls, (814) 641-3445 and emails, corbym@juniata.edu.

Martin A. Ewi

was accepted to the Kroc Institute for International Peace Studies at the University of Notre Dame. He has been selected for admission to the master's degree program in peace studies beginning in August 2000, and awarded a full scholarship.

Attended Juniata

Christopher Wilkinson

attended Juniata College as an exchange student 1989-1990. He owns a pesticide contract company and commercial property letting company in the United Kingdom. Christopher enjoys watching Grimsby town soccer and going fox hunting.

Angela Todd

attended Juniata College as an exchange student 1990-1991. She graduated from Humberside University in 1992. She teaches English as a Foreign Language and is a course leader in EFL at the Teikyo University of Japan in Durham, UK.

Marriages

Marjorie (Loetzbeier) Bakken '52

and Joseph E. Scott were married Jan. 8, 2000 at the Trinity Methodist Church in Scottdale, Pa.

Karen L. deFur '74

and Bill Maxwell were married April 10, 1999.

Wendy A. Jacobus '78

and Larry Rosen were married Aug. 17, 1999.

Kathy M. Johnson '87

married Philip Andrew Johnson March 25, 2000 in Lutherville, Md. Kathy develops continuing education programs on HIV/ AIDS for community and academic physicians, nurses, social workers, counselors, dentists, and pharmacists. They reside in Towson, Md.

Darrelle Lombardi '89

and Stephen Biddix were married in May 1997. Darrelle is a physical therapist at the Lake Norman Regional Center. The couple resides in Charlotte, N.C.

Christopher A. Glover '89

and Debrah Glover were married Oct. 23, 1999 in Hershey, Pa. Best man was Michael S. Barnett '89.

James F. Griffiths '90

was married in September 1999. He and wife Valerie welcomed their son Michael, born July 3, 1999.

Kelley E. Woodworth '91

and Paris Carter were married Jan. 1, 2000.

Kathleen E. Panck '92

and Thomas J. Mahoney were married May 1, 1999. Kathleen joined the firm of Sweeney and Sheehan, P.C. in Philadelphia, Pa.

Kerry M. Ricche '92

married Paul Levine Sept. 19, 1998. Kerry was promoted to vice president at First Tennessee Bank in Fort Lauderdale, Fla.

Anita L. Cardamone '93 and Michael D. Hancox '93

were married. Anita received her master's degree from Penn State in 1998.

Andrea L. Treese '93

married Bruce Berlin in the fall of 1999. The couple is building a home in New Market, Md.
Andrea completed dual postdoctoral certification in family and commercial mediation at George Mason University. She serves as managing law clerk for Judge Jolene Grubb Kopriva in Blair County, Pa.

Oliver Vasseur '93

and Segolene Guilland were married June 12, 1999. Oliver received his Ph.D. in physical chemistry from the University of Clermont-Ferrand in France and now works for a consulting firm.

Sonya L. Miller '94

and Darren W. Browell were married July 24, 1999. Sonya is a second grade teacher in the Tussey Mountain School District in Saxton, Pa. The couple resides in Hopewell, Pa.

Michele A. Schimento '94

and Brian Tippman were married Nov. 6, 1999. The couple resides in Alpena, Mich.

Elizabeth A. Carlson '95

and Keith Dubiel were married July 10, 1999. The couple resides in Charlotte, N.C.

Danielle N. Clark '97

and Akira Maruyama were married July 3, 1999. The couple resides in Japan.

Jessica L. Emrick '97

married Charles Grimes Aug. 1, 1999. Jessica is a communications/English teacher and coaches field hockey.

Brandon N. Simpson '98

and Elizabeth A. Hammond were married Sept. 4, 1999. The couple resides in Smithfield, Huntingdon County, Pa. Brandon is employed by the Huntingdon School District.

Amanda K. Schaaf '98 and Brett M. Shull '99

were married Oct.9, 1999. The couple resides in North Manchester, Ind.

Rebecca N. Hall '99

and Craig Robertson were married Feb. 5, 2000. The couple resides in Lisarow, Australia.

Susan M. Storm '93

and Jeffrey Eckert were married Sept. 6, 1997 in Marietta, Pa. Juniata College alumni in attendance were: (front, Lr) Sherry A. Walter '93, Beth (Magowitz) Herbster '93, Rebecca (Beach) Knaub '93, Annette (Katsaros) Kane '93, and Teresa (Richards) Coller '92; (back, l-r) Tricia M. Gunder '93, Melissa L. Martin '93, Keith A. Herbster '93, Jeff Eckert, Susan (Storm) Eckert '93, Connie Sue (Saylor) Richards '94, Thomas D. Richards '92, Karen (Wickroski) Foster '93, and Fred D. Foster '93. Not pictured but also in attendance was Sandy (Dunmire) Schreffler '93.

CLASS NOTES

Julie Ann Conrad '95

and Dr. Simon D. Bird were married Oct. 16, 1999. In attendance were: (1-r) Andrew Bird, Renee L. Wildermuth '96, Julie (Conrad) Bird, Simon Bird, Froukje de Vries, and David Squire. Seated are Gretchen K. Smith '94 and James Conrad. Not pictured but also in attendance was Guenter Engling '93. The couple resides in Bensalem, Pa.

Philip Vollmer '87

married Andrea Lyn Dowhower Nov. 27, 1999. Juniata College alumni in attendance were: (back l-r) William C. Miller '87, Thomas M. Davis '88, Mark Harris (attended), Jerome J. Dvorak '87; (front l-r) Christopher E. Hester '88, Brenda (Heiland) Hester '88, Rebecca (Culler) Miller '87, Andrea Dowhower, and Philip Vollmer.

Marybeth Henderson '98 and Gabriel G. Gamber '98

were married June 26, 1999 in Carlisle, Pa. In attendance were: (front, 1-r) Matthew D. Sherer '98, best man Joel R. Reed '98, Gabe G. Gamber '98, Marybeth (Henderson) Gamber '98, Dale R. Mowrey '00, Richard C. Shoemaker '99; (back, 1-r) bridesmaid B. Amber Harrison '97, Jeremy D. Brenneman '97, Kim M. Leppo '97, Jeffrey L. Mills '98, Cara J. Kelly '99, Davis R. Holland '97, and Jane M. Prosser '98. Not pictured but also in attendance was Kellie A. Hindman '98.

married William Allison Sept. 4, 1999. Gina teaches college classes and started her own art business. She recently sold five

Shannan C. McDowell '99 and David B. Cassel '98

were married Sept. 4, 1999 by Robert W. Neff, former Juniata College president. Alumni, students, and friends of Juniata College in attendance were: (front l-r) April B. Fijalkowski '99, Julian T. Heal '96, Autumn Haggerty, Brett D. Miller '95, J. Nicole Gentry '99, Curt Hartenstein, Shawn T. Fensterbush '95, Jennifer (Baker) Fensterbush '95, Krista A. Slanker '96, Andrew Murray, Insook Chung, (back l-r) Heather L. Neff '92, Amelia J. Cassel '96, Jane (Miller) Crosby '38, Kirsten M. Crosby '03, J. P. Mills, Colleen Filicky '02, Carol (Royer) Weaver '65, Sarah E. Hamsher '99, Joseph G. Weaver '65, Drew A. Mann '95, Molly A. Molnar '99, Dorothy (Rosewarne) Neff '59, Katherine Jemison, Shannan C. Births & Adoptions

Randall W. Altobelli '78

and Kim Marie Leto are pleased to announce the birth of their daughter, Andrea Kim, born June 24, 1999.

Jeanne (McCollum) '82 and Guy A. Bennardo '82

are proud to announce the birth of their son, Guy Michael, born March 18, 1998. Guy teaches ninth grade biology at the Central Dauphin High School and coaches football. The family resides in Harrisburg, Pa.

Ellen W. Long '83

and Mark A. Long are pleased to announce the birth of their daughter, Gracie Larue, born Jan. 1, 2000.

Jodie L. Buxbaum '84

and husband George Geaneotes are pleased to announce the birth of their first child, Paul Joseph, born Aug. 18, 1999.

Paul A. Becker '84

and wife Marlene welcomed daughter Lydia Jean, on Feb. 7, 2000. Paul is pastor of Hanover Presbyterian Church in Clinton, Pa.

Michael S. Gutshall '84

and wife Catherine are proud to announce the birth of their fourth child, Karis Ann, born March 24, 2000. Karis joins Alison, age 9, Erin, age 6, and Michael Jr., age 4.

Marie L. (Glendenning) '84 and John C. Makdad '85

are pleased to announce the birth of their daughter, Chloe, born Nov. 14, 1999.

Sherri (Herold) Marshall '84

and husband Tom are proud to announce the birth of their son, Mason, born Feb. 17, 2000. Mason joins big brother Max.

Senior Dinner

Nearly 140 seniors attended the Second Annual Senior Dinner Feb. 19.

The dinner, hosted by the College's Alumni Association, is meant to welcome students and explain the benefits of membership in the association. In addition to the dinner, a slide show of pictures submitted by seniors and set to music offered glimpses of student life at Juniata.

"The biggest laughs were pictures from their freshman year," said Michelle Corby, director of alumni relations.

Another highlight: The senior class started a new tradition by putting together a time capsule to be opened in 2025. The capsule includes a Juniata College Alumni banner, an issue of the Juniatian, senior photos, a millennium countdown clock, an academic catalog, campus maps, a class dinner program and more.

"It was a great event to get seniors together one last time," said Sarah Worley '00, who collected the photos and created the slide presentation. "The slide show allowed us to get together and share memories. And we decided to do the time capsule as a way of marking the millennium. We're graduating in the year 2000 and there's a lot of speculation about how things will change over the next few years. We wanted to preserve some of our history."

Special thanks to Worley, Whitney Cramer '00, Betsy Bender '00, the Faculty and Student Committee of the alumni association and all of those who helped to organize the event.

Janet N. Hanning '84

and husband Charles are pleased to announce the birth of their son, Jacob, born March 3, 1999.

Kathryn (Harwick) Foley '85

and husband John welcomed their daughter, Morgan Nicole, on Jan. 3, 2000.

John M. Kirchgasser '85

and wife Mary added a new member to the family with the birth of their son, John Mark, Dec. 17, 1999. John weighed 9 lbs. 12 ozs. and joins big sister Kelly Anne, age 2. Mark was promoted to national merchandise manager with the Kimberly Clark Corporation. The family currently resides in Appleton, Wash.

Robert J. Wetzel '85

and wife Jennifer are pleased to announce the birth of their second daughter, Lauren, born April 7, 1999.

Susan (Kipp) Handler '86

and husband Joseph are pleased to announce the birth of their son, Harrison Maxwell, born July 23, 1999. The family resides in Wilmington, Del.

Cynthia (Bosi) Lavery '86

and husband Anthony are proud to announce the birth of their first daughter, Kaitlyn Leigh, born Sept. 6, 1999. She was 10 lbs. and 22 inches.

Carol (Peterson) Nitzberg '86

and husband Mark are pleased to announce the birth of Erik Joseph, born Nov. 7, 1999. Erik was 8 lbs. 15 ozs. and 21 inches long. He joins big sister Laura, age 2.

Michael J. Schaffner '86

and wife Lisa announce the birth of their first child, Justin Michael, born Nov. 30, 1999.

Richard C. Ulrich '86

and wife Joanne welcomed their daughter, April, on May 5, 1999.

Traci L. Yonko-Wojcik '86 and Michael H. Wojcik '86

are the proud parents of Michael Andrew, born March 7, 2000. He joins big sister Chloe. Mike was recently appointed solicitor to the controller of Allegheny County, Pa.

Frank A. Briner '87

and wife Vicki are pleased to announce the birth of twin sons, Christopher Frank and Nicholas Theodore, born Jan. 12, 1999.

Keith W. Hall '87

and wife Cheryl welcomed their son, Alexander William, on Sept. 26, 1998.

William R. Hinchman '87

and wife Toril welcomed their third daughter, Erika Elizabeth, on Feb. 11, 2000. Erika weighed 10 lbs. 1 oz. and joins sisters Anna and Krista.

Marina (Cupper) Parker '87

and husband Tom are the proud parents of their daughter, Abigail Albright, born Aug. 2, 1999.

Judith M. (McDonnell) '87 and Steven T. Patterson '87

are pleased to announce the birth of their daughter, Claire Ann, born Jan. 31, 2000 and weighing 7 lbs. 3 ozs. She joins Courtney, age 10, Carl, age 5, and Caroline, age 3.

Mary Jo (Letcher) Dunn '88

and husband Kerry M. Dunn announce the birth of their second child, Griffin Matthew, born June 2, 1999. The family resides in Sinking Spring, Pa.

Paul A. Forlenza '88

and wife Tracy are proud to announce the birth of their first child, Cassidy Elizabeth, born Dec. 19, 1999. The couple resides in Burlington, N.J.

Christine (Kleinfelder) Heggan '88

and husband Rick welcomed their third son, Mark Alexander, on Nov. 29, 1999.

Martha L. (Bagwell) '88 and Roy D. Santa Croce '88

are pleased to announce the birth of their third child, Roy Jr., born Feb. 15, 2000. He joins Gregory, age 6, and Megan, age 4.

CLASS NOTES

Michele Minor-Wolf '88

and husband David announce the birth of their son. Mackinley, born July 22, 1999. He weighed 6 lbs. 10 ozs. and was 20 inches long.

Cherie (Byars) Baker '89

and husband Jonathan are proud to announce the birth of their first son, George Arthur, born Oct. 17, 1999. He weighed 5 lbs. 2 ozs.

Kimberly (Kraft) '89 and Todd A. Ballantyne '87

welcomed their third daughter, Abigail Riley, on Nov. 12, 1998.

Edward R. Hoffman '89

and wife Laura are pleased to announce the birth of their daughter, Claire Mayfield, born Aug. 1, 1999. Ed is a pilot for U.S. Airways.

Kimberly (Esh) Russell '89

and husband John are pleased to announce the birth of their first child, son Paul Whittaker. born Feb. 11, 2000. He weighed 7 lbs. 10 ozs.

Mary (Mahlon) Tanyel '89

and husband Murat are proud to announce the birth of their first child, Arthur Nuri, born Jan. 23, 2000. Arthur was 8 lbs. 7 ozs. and 21 inches.

Janine Hyde-Broderick '90

and husband Jay are pleased to announce the birth of Zachary Nicholas, born Dec. 23, 1999. Zachary joins brother Mason, 2.

Valerie S. (Schmoyer) '90 and Michael J. Ford '82

are proud to announce the birth of their daughter, Emma Ellen, born Feb. 12, 2000. She was 9 lbs. 7 ozs. and 22 inches. Emma was delivered at home by Mike with the help of a midwife.

Jennifer L. (Musser) '90 and Michael C. Grill '88

welcomed their second daughter, Natalie Irene, on Feb. 22, 2000. Natalie was 8 lbs. 14 ozs. and 21 inches. She joins big sister Grace, age 5. Michael was promoted to manager of US Cash Management for the Venator Group.

Lisa M. (Peterson) '90 and Daniel P. Lizun '91

are pleased to announce the birth of their second child, Zachary Joseph, born March 19, 1999. Zachary joins his sister Alanna Marie, age 2.

Beatrice M. Hlaing-Paul '90 and Wayne B. Paul '88

are proud to announce the birth of their son. Tyler Jordan, born Oct. 22, 1999. He weighed 6 lbs. 6 ozs. and was 19 + inches.

Tamara (Takarchek) '90 and Walter J. Reese '91

are pleased to announce the birth of their daughter, Lillian Marie, born Dec. 29, 1999. Lillian was 5 lbs. 9 ozs. and 19 inches

Henry R. Salomon '90

and wife Anna welcomed their daughter, Christina Marie, on March 7, 2000.

Elizabeth A. (Russell) '90 and David C. Smith '88

joyfully announce the birth of their daughter, Catherine Emma, born March 6, 2000. Catherine was 9 lbs. 2 ozs. and 21 inches. She joins big brother Luke, 19 months.

Andrea (Smeigh) Bagnell '91

and husband James are pleased to announce the birth of their second child, Michael James, born Dec. 16, 1999. Michael was 9 lbs. 10 ozs. and joins big sister Brooke, age 3.

Heather (Briner) Dum '91

and husband Ben welcomed their second son, Jacob Matthew, on March 20, 1999. Jacob was 8 lbs. 3 oz. and joins big brother Benjamin.

Douglas W. Herr '91

and wife Lisa are pleased to announce the birth of their second daughter, Carolyn Jean, born March 9, 2000. She joins big sister Anne, age 2. Doug is regional sales manager for ACLA USA, a division of ACLA WERKE GMBH, a German polyurethane product manufacturer with national sales and marketing responsibilities.

Andrea (Lupinetti) Regan '91

and husband Victor are pleased to announce the birth of their first son, Alec Martin, born Nov. 18, 1999. Andrea is an anesthetist at St. Vincent Charity Hospital in Cleveland, Ohio. Victor is an executive security specialist and site manager for MBNA in Ohio and a part-time police officer in Pa.

Nicholas R. Spadea '91

and wife Loretta welcomed their second son, Benjamin Joseph, on June 2, 1999. He weighed 9 lbs. 15 ozs. and joins brother Nicholas. The family resides in New Jersey.

Sherri (McGhee) Brenneman '92

and husband Ted are proud to announce the birth of their

daughter, Katelin Joy, born Oct. 23, 1999. Katelin was 3 lbs. 11 ozs. and 16 inches. Sherri received her master's of social work degree from Temple University in 1997 and is the director of social services at the I.C. Blair Memorial Hospital in Huntingdon, Pa.

Brandon R. Speers '92

and wife Heidi welcomed their son, Jed Andre, on March 1, 2000. Jed weighed 7 lbs. 13 ozs. Brandon is director of adventure education at Ligonier Camp and Conference Center in Ligonier, Pa.

Tracy (Hinkle) Gaugler '93

and husband Bryan welcomed their daughter, Madeline Fay, on Dec. 31, 1999. Madeline was 7

and husband John are pleased to announce the birth of their second son, Walker Stine, born Dec. 8, 1999.

Eric W. Zolnak '95

and wife Wendy Jo proudly announce the birth of their son, Noah William, born Oct. 17, 1999.

Melissa A. (Edwards) '96 and Matthew J. Cutshall '97

are pleased to announce the birth of their son, Ethan Matthew, born Jan. 4, 2000. Ethan was 8 lbs. 10 oz. and 21 inches. Melissa is teaching in the Altoona Area School District.

Lori (Hoover) Faust '96

and husband John are proud to announce the birth of their son, Adam Joseph, born Dec. 31, 1999 – making him the last baby of the century in Lancaster County, Pa. Adam was 8 lbs. 11 ozs. and 20 inches.

Kimberly (Najduch) Hoffman '96

and husband Daniel welcomed their son, Daniel Julius, on Oct. 30, 1999. Kim is working on her master's degree in education in integrated math and science from Fresno Pacific University.

Elaine G. (Reedy) '96 and Robert L. Selfridge '96

are pleased to announce the birth of their daughter, Alissa Bruch, in September 1999.

Susanne (Baumann) Aurand '97

and husband David are pleased to announce the birth of their daughter, Sophia Elizabeth, born Nov. 14, 1999. Sophia was welcomed by big sister Anna Lauren, age 3.

Obituaries

1924 Henry J. Hollinger

Dec. 24, 1999 - Henry was a retired public school teacher and administrator in Lebanon County, Pa. He received his master's degree from Columbia University. Henry was the widower of Miriam (Renninger) Hollinger '24 and is survived by son Richard W. Hollinger '53.

1933 John D. Fleming

Feb. 13, 2000 - John taught high school physics, chemistry and general science for 16 years, until his retirement in 1976. He was a member of the Abbey Reformed United Church of Christ, the Pennsylvania State Education Association, and the Retired Teachers Association. He was married to the late Kathryn (Zinn) Fleming '33 and is survived by son John Z. Fleming '63, siblings Robert L. Fleming '35 and Kathryn (Fleming) Weader '28.

1933 Joseph R. Good

April 21, 2000 - (Details on page 26).

1933 Gilbert D. McKlveen

Jan. 7, 2000 - Gilbert served as an educator in schools in the vicinity of Pittsburgh and Huntingdon. He was head of the department of education at Lebanon Valley College and taught at nine different colleges and universities across the country. He appeared in many dramatic productions in local theaters. Gilbert was the author of Jingle Junk and the Good Stuff, a book of poetry in its fifth printing, as well as many other published poems. He is survived by daughter Helen (McKlveen) Miller '62.

1933 Frank Lewis Walley

Dec. 16, 1999 - Frank was a 1936 graduate of Drew University and received an honorary Doctor of Divinity degree from Lycoming College. Frank served for 44 years as a Methodist pastor in the Eastern Pennsylvania Conference of the United Methodist Church. He served as district superintendent of the Northeast District and as conference program director. Frank retired in 1977 from Holy Cross Church in Reading. He served on major boards and committees of the annual conference and was elected four times as delegate to the general conference. After retiring, he was founder and president of the Cornwall Manor Foundation for Benevolent Care.

1933 Paul Walker

Dec. 8, 1999 - Paul retired in 1968 from a position as administrative officer of St. Elizabeth's Hospital. He received his masters' degree in education from Columbia University and served in the Army in Italy during World War II.

1935 Sophia V. Dilling

Feb. 23, 2000 - Sophia retired as a schoolteacher from the State College Area School District in 1974, after 25 years of service. She also taught in Blair and Dauphin counties, with a total of 40 years spent teaching. Sophia is survived by sister **Susanna L. Dilling '41**.

1936 Ada (Reber) Gingrich

Feb. 1, 2000 - Ada retired from teaching in the Palmyra Area School District and formerly taught at the Ebenezer Elementary School. She was a member of the Palmyra Church of the Brethren and its Fellowship Sunday School Class and taught Sunday school. Ada served as Juniata College Class Fund Agent for the Class of 1936.

1936 John T. Byler Oct. 24, 1998

1937 Sara (Mott) Clark

Nov. 20, 1999 - Sara received her teaching certification from the Indiana University of Pennsylvania and was a hospital dietician and home economics teacher in Punxsutawney, Pa., area schools. A gifted porcelain artist, her work is displayed in museums and in the Central Pennsylvania Festival of the Arts. Sara was listed in the World Who's Who of Women and was a member of the American Association of University Women, International Porcelain Artists and Teachers, and Gulf Porcelain Artists.

Jan. 14, 2000

1948 Harold W. Wagner

Jan. 18, 2000 - Harold was coowner and manager of the Huntingdon Motor Inn in Huntingdon, Pa., and was involved in the poultry business for a number of years. During World War II, he served in the U.S. Army.

1950 Holmes B. Ulsh

Jan. 19, 2000 - Holmes received his master's degree in physics from Pennsylvania State University in 1952. From 1945 to 1947 he served in the United States Air Force. Until his retirement in 1987, he was employed by IBM as an electrical engineer. Holmes is survived by wife Virginia (Tyson) Ulsh '52.

1953 Ronald L. Cherry

March 19, 2000 – (Details on page 26).

CLASS NOTES

1954 William R. Brumbaugh

Oct. 7, 1999 - William is survived by his wife, Joyce (Butts) Brumbaugh '54, son James C. Brumbaugh '79, and daughter Janelle (Brumbaugh) Weaver '81.

1955 Eleanor (Furry) Ammermann

Oct. 28, 1999.

1956 Kay (Kellogg) Holmes

Jan. 26, 1996 - Kay was a volunteer for United Cerebral Palsy, Habitat for Humanity, Parents Anonymous and several ecology programs. She organized three telethons for United Cerebral Palsy and served on the board of directors for the local area. Kay was also an avid bicyclist, managing to ride over 20,000 miles in 10 years and winning the Yoplait senior women's race in 1980.

two grandchildren. Memorial contributions in memory of Dr. Ronald L. Cherry may be made to the Ron Cherry Scholarship Fund of Juniata College, c/o Development Office, Juniata College, 1700 Moore St., Huntingdon, Pa. 16652.

In Memoriam

Dr. Ronald L. Cherry, 1931 - 2000

Ron Cherry came to Juniata College as a student in 1949. He returned to teach in 1958. He retired in 1998. For 28 of the 40 years that he taught at Juniata, my office was either next door or across the hall from his. When I told people this in Ron's presence, I would add "...and I've got the scars to prove it." To which he would reply, "...and so do I."

What I will always remember about him is his true devotion to Juniata students. In the month before he died, Juniata alums Eric and Karen Biddle encouraged former economics and business students to send Ron cards, notes and e-mails. Many did. In fact, the number who did was astonishing. The cards and notes from so many former students were a great joy and comfort to him at the end.

Anyone who encountered Ron has probably got a story to tell. Many of them are about his legendary driving skills. I'm sure students from the mid 70's remember the field trips in the old school bus with Ron at the wheel. The van trips to camp Blue Diamond on the Petersburg Pike are also legendary. If they don't have a driving story, they have a HOBO story; getting lost on the hike, falling into a stream or falling off a rope. It could be a story about an early morning walk in the snow at an alumni seminar (again Blue Diamond) or about an elegant dinner hosted by Ron and Betty Ann at 1830 Mifflin or about turning a cartwheel in class to regain someone's attention. Students from the '60's may remember Ron arguing with everyone else on the staff in the Nature of Man or trying to navigate through their first microeconomics course. To the end, he thought that getting rid of comprehensive exams was the worst decision the faculty ever made. Having participated in a few oral comps with him, I'm certain that the students who had Ron on their comps probably have a different view.

Most of all, Ron Cherry was a great teacher. I team-taught many courses with him and I always felt like a student. While he often changed what he taught, he never really changed how he taught. His style was "in your face." Here's Ron's take on good teaching. (I heard this in many different versions over the years.) Students have to be confronted. Students have to feel uncomfortable. Students have to be made to stretch. Students will never grow and develop unless they are challenged. They'll never know what they're capable of if we don't ask them to do things that they don't

Ronald L. Cherry, '53 1931-2000

Ronald L. Cherry, former Charles A. Dana Professor of Economics and Business Administration, died March 19, 2000, at J.C. Blair Memorial Hospital, Huntingdon. Dr. Cherry graduated summa cum laude from Juniata in 1953 and earned his Ph.D. in economic theory from Princeton University in 1961.

Dr. Cherry joined the faculty of Juniata College in 1958 as an instructor. He was promoted to assistant professor in 1960 and, that same year, he was appointed registrar of Juniata. He served as registrar until 1963 when he chose to devote himself to teaching full time. In 1964 he became associate professor and, in 1966, a full professor. In 1971, Dr. Cherry was named the first Charles A. Dana Professor of Economics and Business Administration. In 1977, he was awarded the Beachley Distinguished Professor Award for outstanding teaching. Between 1973-74, Dr. Cherry took a year-long sabbatical leave during which he served as the first visiting professor at the Harvard Business School. He also taught a year at Hokusei Gakuen University in Sapporo, Japan. Dr. Cherry retired in May 1998 after 40 years on the faculty at Juniata.

A former president and trustee of the Huntingdon County Historical Society, Dr. Cherry also served on the board of Swigart Associates for 15 years, and retired in June 1999 from the board of Mutual Benefit Insurance Company after 16 years. He had also served on the board of the J.B. Kunz Company for 15 years.

He enjoyed model railroading, genealogy and flower gardening. Dr. Cherry was a member of the Stone Church of the Brethren, Huntingdon. He is survived by his wife, Betty Ann, Juniata professor emeritus of history; two children: Charles C. Cherry, Chicago, Ill; and Anne Elizabeth Rice, Greencastle. There are

think they can do. It doesn't matter if they like you. Those that persist will be better for it. They will appreciate it years after they graduate from Juniata. The rightness of this view is surely reflected in the many cards and notes sent by his former students.

To Betty Ann, to Ron's son Chip and daughter Anne, to his son-in-law Charles and grandchildren Heather and Eddy, you should know how special he was and how much we will miss him—especially the guy in the office next door.

—James J. Lakso
Professor of Economics and Business Administration
Provost and Vice President of Student Development

Joseph R. Good '33 1911-2000

Joseph R. Good, Juniata trustee since 1952, died April 21, 2000, at Lancaster General Hospital, Lancaster, Pa. A 1929 graduate of Hollidaysburg High School, Good attended Juniata College during the early years of the depression. He founded Electric Appliance Distributors, Inc. of Altoona in

1933, a Williamsport branch in 1937, and founded Good Distributors in 1945. He was employed at Hollidaysburg Trust Company from 1959-73, where he served as loan officer, vice-president, and president. Good was named Chairman of the Board in 1978.

Good was elected to the Juniata College Board of Trustees in 1952 where he served on numerous committees and for many years as the vice chairman. He was awarded an honorary doctorate of law degree from Juniata in 1981. In 1994 he was named trustee emeritus. Good served as general chairman of Phase Two of the college's Century II Campaign and later served on the college's Transformations Campaign steering committee — he was named Honorary Chair of that campaign.

Good's commitment to Juniata has been felt far beyond his role as a board member. During his 71-year affiliation with the college, he has supported Juniata with his untiring leadership and enthusiasm. In 1977 Good received the National Alumni Association's Alumni Service Award.

Good was a member and former president of Hollidaysburg Rotary Club, a Hollidaysburg school director, a member of the YMCA board, and the Regional Planning Commission.

Surviving are his wife, Jane; two daughters: Martha Wenger '61 of Ephrata, and Nancy Wenger '63 of Akron, Pa.; four grandchildren; and a great-granddaughter.

Memorial contributions may be made to the American Cancer Society, 1004 N. Juniata St., Hollidaysburg, Pa. 16648, or the American Heart Association, 501 Howard Ave., Altoona, Pa. 16601.

In Memoriam

Joseph R. Good, 1911-2000

Joe Good's history with Juniata covers over 70 years. Joe attended the college during the early depression years, received an honorary degree in 1981, served the Board of Trustees for more than 40 years, and was named Trustee Emeritus in 1994. Joe's life history is filled with a love of family, a quiet determination, a deep faith, an exceptional business sense, and an unquestioned loyalty to Juniata.

Joe was a generous supporter of Juniata and that support began during the Depression. He has supplied significant leadership in campaigns for Juniata at every level during his entire lifetime. He and his wife Jane were two of the first individuals to make a commitment to the Transformations Campaign of \$100,000.00 for scholarship endowment and academic programs. When they met this obligation, they agreed to give an additional \$10,000.00 a year for life toward The Juniata Fund and the Cloister renovation project.

Joe was an avid sports fan. Both he and Jane could be expected to attend both home and away games. One could glance at the stands at football games, Joe and Jane were there. At a volleyball match or basketball game, Joe and Jane were there. They were there rain or shine, win or lose, no matter what the schedule was in their personal lives. Joe and Jane also could be seen at student concerts, plays, convocations, and commencements.

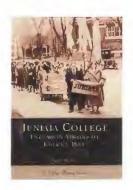

When the Chair of the Board died unexpectedly in 1990, Joe became Chair and Dottie and I and Joe and Jane became close friends. During that school year, we experienced a tough student issue. *The Juniatian* expanded to 16 and 20 pages. The administration was under attack. When I would talk to Joe, he remained unflappable, at age 80. He would say, "Bob, this is an educational institution. We must all learn from it. Don't forget who and what we are." I discovered then that Joe was something special. First and foremost in my mind, he was an educator.

To Jane and Joe's daughters, Martha and Nancy, and their families, we thank you for a husband, father, and grandfather who extended the meaning of family to thousands of young men and women who came to Juniata and learned that a trustee could be supporter, friend, and educator.

---Robert W. Neff President, Juniata College 1986-1998

Juniata Magazine

IN PRODUCTION

Juniata College: **Uncommon Visions of** Juniata's Past

Dr. Nancy Siegel, Juniata College Museum of Art Curator and Assistant Professor of Art History

The collection of photographs in Juniata College: Uncommon Visions of Juniata's Past shows in eloquent detail Juniata's first 50 years. Siegel collected the 200 black and white photographs used in the book from the vast archives of the Juniata College Museum of Art.

Juniata College visits buildings no longer standing, recreates many forgotten traditions and reveals the engaging story of Juniata's growth.

A complementary art exhibit, "Uncommon Visions: Archival Views of Juniata's Past," a memorial exhibition for Harold B. Brumbaugh, will be on display in the museum until Sept. 2, 2000. Siegel said both projects are dedicated to H.B., whose years of dedicated service enabled such a vast history of the College.

Current Research in Operational Quantum Logic

Co-editor/Contributor, Dr. Alexander Wilce, Assistant **Professor of Mathematics**

This volume, targeted to pure mathematicians, theoretical physicists, computer scientists and philosophers of science, is a collection of survey papers that gives an overview of the concepts and methods used in current research in quantum logic.

All eleven of the essays in Current Research in Operational Quantum Logic were specially commissioned and provide an introduction to quantum logic and an overview of current research in the subject.

Co-editors on the project were Bob Coecke, Free University of Brussels, and David Moore, University of Geneva.

Strangers

Robert M. Biter, MD '92

The play written by Robert M. Biter '92 explores the relationships between a young doctor, his patient, and his wife as they struggle to define their roles in one another's lives. It has been named best production and best original play in the 1996 Theatre Association of Pennsylvania.

Strangers also was awarded second place in the 1993 Pennsylvania Medical Drama Competition. The play captured second place at The Eastern Regional Theatre Association's National Competition.

The play is dedicated to the memory of Len Biter, the playwright's father, who died of cancer in 1988.

Juniata Magazine

EACULTY FEATURE

James Borgardt

James Borgardt, assistant professor of physics, has been making Physics Phun Night an event to remember for the past two years. He created the event, free to the college and surrounding communities, to show children that learning about science can be exciting, dramatic and fun.

For Dr. Borgardt and many of the Juniata students who help him pull it off, it is an anticipated evening. "Fifteen students use their personal time to participate in the event and the reward is being able to help children learn and have fun," Dr. Borgardt said. "It is very beneficial to have students willing to do this and contribute to community service."

Dr. Borgardt's enthusiasm is the reason the event is such a success, said Daniel Savino '00, who studied physics and education. "Without his experience and motivational efforts, Physics Phun Night would not be a reality." The event, quickly becoming a Juniata tradition, was standing room only for its first two years.

The event is not only valuable for the attendees but also for the Juniata students who help in the planning and demonstrations. In 1999, Juniata's Society of Physics Students earned an Outstanding Chapter award, coming out ahead of institutions like. Bucknell and Penn State. Dr. Borgardt attributes that honor, in part, to the notoriety, success and public service associated with Physics Phun Night.

Physics Phun Night isn't all there is to Dr. Borgardt. He's looking forward to setting up a research project this summer on ionic beam analysis. He came to Juniata in 1998 after earning his bachelor's degree from the University of California and his master's degree and doctorate from the University of Arizona where he also served as a post-doctoral associate and an instructor. He received an Excellence in Teaching Award from the University of Arizona, an **AAPT Outstanding Teaching** Assistant Award and was recognized by Lockheed Corporation for outstanding

contributions to a project. Dr. Borgardt also co-founded "Science-mentors," a community outreach program at the University of Arizona that places college science majors in grade school and high school classrooms to perform demonstrations. He has published a number of papers and has presented at conferences.

Perhaps Dr. Borgardt's greatest accomplishment is best stated by his student, Dan Savino: "The most impressive thing about him is his ability to remain professional while maintaining a relaxed relationship with his students. Students also know they can go to him for help." Savino believes that Physics Phun night is more than just a show of scientific wonder. "This event helped me realize that teaching is a profession that I can gain a lifetime of enjoyment from."

Juniata Magazine FACULTYBRIEFS

Iack Barlow

Diane Bargiel, assistant professor of music and director of the Artist Series. was in New York City Jan. 6-11, 2000, to attend the Association of Performing Arts Presenters Winter Institute seminar "Branding Strategies." While there, Professor Bargiel also attended the Association of Performing Arts Presenters Annual Conference. She served on the Credentials Committee and hosted a "dine around" which included discussion on the topics of community outreach and branding strategies. Professor Bargiel wrote two articles for the PA Presenters' December Newsletter. One article was in reference to Iuniata's Artist Series "Audience Appreciation" post card. The card was such a big hit with the agencies (Mid-Atlantic Arts Foundation, Pennsylvania Performing Arts on Tour, & the Pennsylvania Council for the Arts) that Juniata was requested to do the same for appropriate Congressmen & Senators.

Professor Bargiel attended the joint conference of the Eastern Division of the College Band Directors National Conference and The New England College Band Association March 31 and April 1 at Yale University. She conducted the

Hartt Symphony Band on a work for the session titled. "Hidden Treasures/Festival Favorites" and was a panelist for the session titled, "Life in the Small College Band."

Jack Barlow, associate professor of politics, had an article. "The Fox and the Lion: Machiavelli Replies to Cicero," published in History of Political Thought (December 1999). His two essays (written in 1992!), "Officeholding Clause of the Constitution and Religious Test for Officeholding," and "Officeholding: Religious-Based Limitations in Eighteenth-Century State Constitutions," appear in Religion and American Law: An Encyclopedia, edited by Paul Finkelman (Garland Publishing, 2000). In early March, Dr. Barlow traveled to Turkey as part of a factfinding delegation to assess programs of civic education in Turkey and the prospects for U.S. cooperation and assistance. Also in March. he served as chair of the External Evaluation Team for the Department of Political Science and Economics at Lebanon Valley College.

James Borgardt, assistant professor of physics, was recently named secretary of the Pennsylvania Section of the American Association of Physics Teachers.

Doug Glazier, professor of biology, has published an article in the March 2000 issue of *Ecology Letters*. In this article, titled "Smaller amphipod mothers show stronger trade-offs between offspring size and number," Dr. Glazier presents a new way of testing a basic assumption underlying the classic trade-off between offspring size and number predicted by life-history theory. He shows that body-space constraints are more important than energy constraints in causing this trade-off in freshwater shrimp inhabiting springs of central Pennsylvania.

David Lehmann, assistant professor of geology, was awarded a \$25,000 grant from the Petroleum Research Foundation of the American Chemical Society for research he is conducting on local geology. Most of this money will be used to support student summer

David Lehmann

research. Dr. Lehmann presented a paper at the Geological Society of America's Northeastern Sectional Meeting in New Brunswick, N.J., recently. Amanda Albright '01 also presented a paper and Will Koeppen '01 was co-author on each of these papers.

Dr. Lehmann was selected as Chairperson of the Northeastern Section of the Paleontological Society. He will serve as Assistant Chair this year and as Chair in 2001.

Jose C. Nieto, Mary S. Geiger professor of religion and history, recently had two articles published in The Encyclopedia of the Renaissance, a six-volume set of books written to appeal to the general public, but with information of interest to scholars. One article discussed Michael Servetus, a Spanish scientist, humanist and theologian from the 16th century, who is credited with explaining the pulmonary circulation of the blood for the first time in the Western world. Servetus was burned at the stake by John Calvin in Geneva for being an antitrinitarian. The second article, in a separate volume, was on Juan De Valdés, a Spanish humanist and religious writer from the 16th century, who remains "an enigmatic figure, a bridge between Spain and Italy, between Renaissance and Reformation," Dr. Nieto said. Valdés was the founder of Spanish linguistics. In central Pennsylvania, scholars from only two institutions - Juniata and Penn State-Altoona - were asked to contribute to the encyclopedia. The Encyclopedia of the Renaissance was published by Charles Scribner's Sons and in association with The Renaissance Society of America.

David Sowell, associate professor of history, presented "So You Want to be A Professor," to Penn State's Schreyer Honors College, Feb. 29, 2000. In March, Dr. Sowell served as commentator on three papers discussing "Disease, Public Health and Identity in Latin America," at the 22nd Meeting of the Latin American Studies Association, in Miami, Fla. Dr. Sowell serves as co-chair of the section on Social Studies of Medicine of the Latin American Studies Association. In his role as Chair of the Grand Colombian Committee of the Conference on Latin American History, he commented on three papers discussing "Twentieth Century Colombia: Bananas, Bosses and Business," at the annual Conference on Latin American History meeting in Chicago, Ill., in January 2000.

Paula Wagoner

Lizabeth Wiinamaki

Paula Wagoner, assistant professor of anthropology, has completed her dissertation since arriving at Juniata. "Ambivalent Identities: Land, Blood, and U.S. Federal Policy in Bennett County, South Dakota" is being revised for publication by the University of Nebraska Press. Dr. Wagoner has coedited a small volume of conference papers, Interpreting Cultures, in honor of Clifford Geertz's 25th Anniversary of his seminal work in interpretive anthropology, Interpretation of Cultures. She has contributed a chapter titled: An Unsettled Frontier: property, blood, and U.S. federal policy for C.M. Hann's Property Relations, 1998, Cambridge University Press. Dr. Wagoner has attended, presented papers, and co-organized panels at the following professional organizations: American Anthropological Association; Central States Anthropological Society; American Society on Ethnohistory; and the Symposium honoring Clifford Geertz at Indiana University. She has completed 10 book reviews for journals such as the Journal of the Royal Anthropological Institute; Ethnohistory; American Ethnologist; South Dakota History; and Journal of the West. Dr. Wagoner has recently designed several new courses, including an interdisciplinary (geology, environmental sciences, biology, and anthropology) remote field course in the Four Corners region of the American Southwest beginning summer 2000. She plans to attend the joint PSA (Peace Studies Assn.) and COPRED conference in Austin, Texas, in late March 2000.

Lizabeth Wiinamaki, assistant professor of criminal justice & social work, presented "Participation in Victim-Offender Mediation and Re-offense: Successful Replications?" at the Annual Meeting of the Academy of Criminal Justice Sciences in New Orleans, La. on March 23, 2000. In April, Dr. Wiinamaki attended the Annual Conference of the Pennsylvania Association of Criminal Justice Educators at York College, Pennsylvania. Dr. Wiinamaki was elected to the Executive Committee.

Juniata Magazine SPORTS

Bill Berrier

THE END OF A "LEGENDARY" ERA

Webster's Dictionary defines a "legend" as one having special status as a result of possessing or being held to possess extraordinary qualities.

Longtime administrator and coach Bill Berrier has, without question, achieved legendary status during his days on College Hill, but his run of 41 years of service will close out this coming Dec. 31, when he retires from his post.

One thing is for sure, it will not be the same at Juniata without him. But he has known for a while how his plans were going to unfold.

"Marjorie (Berrier's wife) and I have always wanted to retire at the same time," said Berrier. "She is going to complete her working career this coming December, and as a result, that is when I will retire from Juniata College. It is time for me to move onto the next phase of life and I am looking forward to it."

Berrier has achieved most of his "legendary" status as the head coach of the Juniata baseball team, a position he assumed in 1969. Including the 2000 campaign, his blue and gold diamond mentoring career covered 32 seasons and it recently came to a close with a 10-5 victory over visiting Alvernia on May 1. The triumph was the 420th of his collegiate tenure and Juniata's 23rd of the 2000 season, which established a school record for wins in a campaign.

A sport at Juniata that has been in existence since 1899, baseball has enjoyed its most productive time under the direction of Berrier. The blue and gold squad captured the Middle Atlantic Conference (MAC) title two times, won the MAC Northern Division four times and posted 17 .500-or-better seasons with Berrier at the helm. Juniata also appeared in the NCAA Division III baseball playoffs three times under Berrier's guidance.

His baseball coaching career was recognized on April 29 of this past season in between a doubleheader with Susquehanna at Langdon Field. Berrier was presented a portrait and "timeline" done by a professional artist and in addition, his number (31) was retired. His old pinstriped jersey was mounted and framed and given to him, while another #31 jersey was mounted and framed and will be displayed in the Kennedy Sports and Recreation Center.

"I have had a lot of special memories while coaching the baseball team here," commented Berrier. "Participating in the NCAA playoffs and winning conference titles were highlights, but having relationships with the student-athletes has been what it is all about. I will remember forever the student-athletes who I have coached."

A native of Harrisburg, Pa., Berrier is a 1960 Juniata graduate. He was a four-year letter winner and standout in both baseball and football during his playing career on College Hill. A football cocaptain as a senior, he was an all-state and little all-American fullback who set several MAC records, held six individual school records and was named the team's most valuable back three times.

On the diamond, Berrier posted a .325 batting average and went on to sign a minor league contract with the Dodgers. He ended up reaching the AAA level during a playing career that lasted from 1960 until 1966

Berrier began his professional career at Juniata in 1961 as the assistant dean of men and an assistant football coach, and he remained in that post until 1969. He then became the associate dean of students and held that position until 1977.

In 1977, Berrier accepted the director of athletics post at Juniata, and returned to College Hill full-time. While serving as the head of the department of athletics until July of 1995, he was also the institution's wrestling coach (1961-92). Since the Summer of 1995, Berrier has continued to work as the baseball coach at Juniata, as well as the director of intramurals and athletic events

"Bill is Juniata College athletics," said current Juniata director of athletics Larry Bock. "He has given his life to Juniata and its athletic program and he has done an outstanding job in every position he has held here. I have learned a tremendous amount from Bill and many of us owe our careers to him. He has had a positive effect on everyone that he has come in contact with."

"I have accomplished a lot of the things that I have set out to do during my career here at Juniata," said Berrier. "I never would have thought when I graduated from here in 1960, I would still be here now, but here I am. I am very proud of what I have done here and I can walk away feeling good about things."

CAVANAUGH RETURNS TO JUNIATA FOR A SPECIAL DAY

Juniata College graduate Steve Cavanaugh '96 (pictured below, left), recently returned to campus for one of the most special days of his life since graduating from College Hill. Upon receiving his diploma in May of 1996, he enlisted in the United

States Army for a stint that at one point had him stationed as an intelligence officer in South Korea. When he neared completion of his first "goaround" in the military service, he knew he had a decision to make.

The decision he went with was to re-enlist in the

army for a five-year period, but even more impressive was the fact that he chose to conduct his re-enlisting ceremony for the 742D MI Battalion at Knox Stadium on a cool early spring day.

"Juniata has always been a special place to me and I wanted to show how great of a place it was to the people that I serve and work with," explained Cavanaugh just prior to the brief ceremony. He went on to say, "I looked around to see what the 'outside' had to offer, but what the army had in store for me was better than anything else that I found."

During the next five years, Cavanaugh, who is a grade E5, will be involved in some very top secret and special tasks with the army.

"It is so secret that I don't even know what I will be doing," said Cavanaugh with a smile.

He was a two-sport athlete (baseball and football) during his days as an undergraduate at Juniata, and he received the prestigious Stanford Mickle Award as the outstanding senior male athlete on campus in 1996. A tight end on the football field, Cavanaugh caught 45 passes for 409 yards and one touchdown in his career. He was a first baseman for Coach Bill Berrier on the baseball unit for four years and he led the team in home runs and runs batted in as a sophomore, junior and senior. He currently ranks second on the all-time home run list at Juniata (17) and is tied for seventh in career RBI on College Hill (61).

Juniata Magazine CAMPUS EVENTS

Campus Heats Up with Summertime Activities

New Visions & Voyages June 25-July 1, 2000

Juniata College offers two exciting, week-long, residential summer camps for gifted students in grades four through 10. Campers who attend New Visions & Voyages are academically talented students who spend seven exciting days pursuing interests

in the sciences, arts, humanities and social sciences. Courses and activities are designed to inspire special individual talents, expose campers to new ideas and approaches to learning, provide a residential environment that encourages interaction between individuals with similar interests and abilities, and offer a taste of the many opportunities available on Juniata's campus.

For more information on how to register for next year's camp, please call (814) 641-3665.

PA Governor's Institute for Early Childhood Educators July 23-28, 2000

Juniata College received a \$120,000 grant from the Pennsylvania Department of Education to host the PA Governor's Institute for Early Childhood Educators. This summer-study program is designed to provide early childhood professionals with rigorous training in the subjects they teach as well as innovative new ways to help their students excel. Teachers will learn about Pennsylvania's new academic standards, state assessments, and the use of technology to help students

learn. Dr. Fay Glosenger, professor of education, will serve as on-site director. Dr. Robert Gundling '74 serves as the program director for the Institute.

Basketball Day Camp August 7-11, 2000

Juniata's head men's basketball coach, Rick Ferry, along with assistant camp directors Anthony Hall and Keith Black, mentor boys and girls grades three through nine during this week-long camp. Participants focus on learning the fundamentals of the game as well as post play and defensive skills. A sampling of daily activities include a shoot-out competition, 1-on-1 and 2-on-2 tournaments, skills teaching, and free throw shooting. Campers also enjoy swimming, contests, and lunch in Baker Refectory. For more information on this and other basketball camp offerings, contact Coach Rick Ferry at (814) 641-3521.

On display through September 2, 2000 Carnegie Hall

Uncommon Visions uses a variety of photographs to explore the first 50 years of the history of Juniata College, from its simple origin in one room over a printing shop, to the 1920s as Juniata emerged into a leading liberal arts college. The photographs are a campus tour that includes visits to buildings no longer standing and re-creations of many forgotten traditions. A publication complementing the exhibition is available for purchase at the college bookstore.

Events CALENDAR

June 12-15	Baseball Day Camp II (ages 13-15)
16-17	Freshmen Orientation; additional orientation dates include June 18-19; June 21-22; June 23-24; Aug 22-23
16-18	Football Camp
18-21	Southern Huntingdon High School Band Front Camp
21-24	Girl's Basketball Team Camp
22, 29	Football Quarterbacks & Receivers Clinics (Additional dates include July 6 & July 13)
25-29	Volleyball Express I; Volleyball Express II - July 23-27; Volleyball Express III - July 30-August 3
25-July 1	New Visions and Voyages Camp
July 7-9	Boy's Basketball Camp
7-9	Strength & Conditioning Camp
10-11	Football Youth Day Camp
23-28	PA Governor's Institute for Early Childhood Educators
30-Aug 4	James Buchanan High School Marching Band Camp
31-Aug 18	Intensive English Program
Lugust 7-11	Juniata College Basketball Day Camp
11-13	Swigart Antique Auto Museum Meet
	Please call the Information Desk at (814) 641-3333 for more information.

Reconnecting

with Juniata

I was fortunate enough last year to return to Europe for two months of travel. Gretchen K. Smith '94 and I went to the 14th annual European Alumni Reunion in Strasbourg, France, before heading off to Italy and Germany for two weeks. While we toured the Vatican museum in Rome we ran into Jennifer (Bowman) Sampson '95 and husband Zachary on their honeymoon. The four of us then continued our exploration of the Vatican together marveling at the coincidence before heading off in different directions. It's a small world after all!

(left to right) Gretchen K. Smith '94, Julie A. Conrad '95, Jennifer (Bowman) Sampson '95

- Julie A. Conrad '95

In November 1999 I was part of a Church of the Brethren delegation to Nicaragua. There were 14 in our group and we discovered four of us were Juniata College graduates.

(left to right) James C. Gibbel '60, Phyllis (Bradley) Dodd '78, Ann M. Summy '87, Sandra (Hall) Snowden '87.

Joining me were Phyllis (Bradley) Dodd '78, Ann M. Summy '87 and Sandra (Hall) Snowden '87. Following a few days of orientation in Managua we spent eight days in Mulukuku with the project of constructing a community center building in the village of Santa Rita. The photo is of the welcome sign, which greets visitors to Santa Rica. It translates to "Pennsylvania and Nicaragua Always United."

- Jim Gibbel '60

Winter 2000 Deja View

A tremendous response from the last issue's Deja View indicates that this photo was taken from an Institutional Management Class sometime around 1943. Pictured on the far right is Frances J. Mathias, director of footor's service and assistant professor of home economics at the time.

Everyone recognized the woman in the center as Sarah Jane Mattern '43. The woman on the left was identified by several responders as Jeanne Cutshall '43 although one person suggested Dora Messenger '42.
